Sustainable Practices

We are committed to a sustainable future

Sustainability has always been present in the way we reuse, repair and upcycle our stock. In 2022 we started our sustainable printing journey and created a committee to solidify our commitment. Since then, we have been challenging ourselves to improve our internal practices and reduce the impact of the products we create for our clients.

Our goal for 2024 was to design a sustainability strategy and embed it in our everyday practices. We are strengthening our past efforts by creating a long-term strategy to guide us along the journey tracking our current and future initiatives.

For more information on our Sustainability Journey please visit our website www.exponet.com.au.
